

Ian Wilson

SOCIALIST LABOUR

for SELBY WEST

Are you tired of seeing public utilities sold off, playing fields and libraries closed, the sick denied benefits and schools taken over by fringe groups?

Are you wondering why housing and land is sold off to private developers who extort massive rents or build houses we don't need and can't afford to live in?

Do you believe the role of building and managing affordable public housing should belong to local authorities?

Would you like to see our local communities revived with traditional industries restored and pensions protected?

Ian Wilson is a working class candidate. He is proud to represent a working class party which does not depend on wealthy business interests. He is honest, local, independent and will stand up for any resident who is denied benefits, access to services, social care or treatment on the NHS

On 2nd May VOTE Wilson
